This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1934 edition of the Goldsboro City Directory.

Confidence in the growth of Goldsboro's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Goldsboro to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Goldsboro Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:—

THE BUYERS' GUIDE, pages 17 to 40, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Goldsboro. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Goldsboro, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 41 to 238. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Goldsboro, and the name, official personnel, nature and address of each firm and corporation in the city.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 241 to 286. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 289 to 324. This department lists the names of all business and professional concerns in alphabetical order

under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Goldsboro.

The Goldsboro Directory Library

Through the courtesy of the publishers of the Goldsboro City Directory, a Directory Library is maintained in the offices of the Goldsboro Chamber of Commerce, for free reference by the general public. This is one of 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Education—11 public schools, including 1 senior high and 1 junior high. Number of pupils in public schools, 4,500; teachers, 120. Value of public school property, \$2,000,000.

Public Libraries—1, containing 25,000 volumes.

City Statistics—Miles of paved streets, 30. Miles of gas mains, 15; sewers, 20. Number of water meters, 3,500; light meters, 3,000; gas meters, 1,500. Capacity of water works (municipal), 1,000,000 gallons; daily average pump, 500,000 gallons; miles of mains, 30; value of plant, \$1,500,000. Fire department has 18 men, with 2 stations and 10 pieces of motor equipment. Police department has 16 men, with 1 station and 2 pieces of motor equipment.

General Review

Goldsboro is the county seat of Wayne County, one of the leading manufacturing and agricultural counties of North Carolina. It is the home of thirty well-established manufacturing plants, the principal products of which are brick, veneer, lumber, building supplies, cotton yarn, hosiery, tobacco, locomotives, farm implements, furniture and mattresses. The agricultural resources are practically unlimited, and Wayne County produces annually an average of thirty thousand bales of cotton, fifteen million pounds of tobacco, and tons of grain, hay and other food crops, to say nothing of live stock and poultry. Goldsboro is the marketing center for these commodities, which makes it a prosperous city and a desirable one in which to locate.

The population of Goldsboro in 1910 was 6,107; in 1920, 11,296; in 1930, 14,985, and today Goldsboro claims approximately 17,500 residents. The city is the shopping center of nearly 200,000 people residing within a radius of twenty-five miles.

Goldsboro, due to the nature of its surrounding territory, its geographical location and its unsurpassed facilities, is rapidly developing into a commercial center. Recently several large manufacturers have located distributing branches here. Twenty-six passenger trains run to and from the city daily, which naturally is advantageous to the commercial traveler doing business in eastern North Carolina. Goldsboro is the gateway of eastern North Carolina, and as such, has a mission to perform, a mission that means much to mankind in general, because here in this favored spot are found health, happiness and well-being.

Goldsboro dates back to the time of Sir Walter Raleigh, who, if he did nothing greater than exploit the section wherein is located the Gate City, is entitled to a full meed of praise for this one act. In the years that have elapsed since then, Goldsboro has pursued the even tenor of its way, and its citizens have been content to enjoy and prosper under its advantages until it has secured a foundation on which to create and which will enable it to build like the wise man of old—upon a solid rock that will withstand the storms of panics, short crops and the greed of politicians. In the building of this city to date, ideal citizenship has been kept constantly in mind, and with the greater duration of the visit of the "stranger within its gates," the more surely there comes the charm of contact with a hospitable, democratic class of citizens whose ideals are based on character rather than bank account.

Here is the dividing line between the frigid climate of the North and the enervating climate of the tropics.

Here are found nine months of summer, with only three of autumn or winter temperature, none unpleasant.

Here one is within a daylight journey of New York, Philadelphia, Baltimore, Washington, Savannah, Atlanta and Jacksonville.

Here one is within a thirty-hour ride of Boston, Quebec, Montreal, Toronto, Buffalo, Cleveland, Cincinnati, Detroit, Chicago, St. Louis, Louisville, Memphis, New Orleans, Mobile and Palm Beach, embracing an area containing a population of over seventy millions.

Here one is within a few hours' ride of the finest surf bathing on the Atlantic Coast, on the beaches of Wrightsville, Morehead City and Beaufort; and here one can live in the warmth of a genial sun and yet be in touch with the life of the nation.

Health conditions are ideal, the death rate averaging less than nine to a thousand. The city owns its splendid water system, furnishing at a minimum cost the purest of soft drinking water. Goldsboro has twenty miles of hard-surfaced streets, thirty miles of paved sidewalks, one of the best white-way systems in the South, well-equipped parks and playgrounds, permanent health and sanitation officers with efficient staffs, a permanent community center, a nationally-known organization of associated charities, one of the best and most active Chambers of Commerce in the Southern states, a wide-awake Merchants' Association, an efficient traffic department, Rotary and Kiwanis clubs, and posts of all the leading fraternal orders. Living conditions, from a health standpoint, are beyond criticism, and living conditions from a financial standpoint are within the means of all. Electric power, gas, telephone and water rates are equal to those of the average city. Being located in an agricultural district, country produce is plentiful and reasonable in price. All roads leading into Goldsboro are hard-surfaced. Hotel facilities are ample. Board and room in private homes is available. Modern apartment houses have been provided.

Wayne County ranks high in agriculture. Here are grown hay, alfalfa, cowpeas, cabbage, beets, beans, peas, celery, truck garden products, strawberries, dewberries, huckleberries, melons, peaches, plums, cherries, apples, pecans and numerous products of the soil. This is the land where three crops can be grown on the same soil during the year, and a land which, by reason of its freedom from rocks, is easily and economically tilled. Here can be produced from one acre of land, 1,500 pounds of tobacco, or 1,500 pounds of cotton.

Thirty years ago Goldsboro was a village of very few inhabitants. The soil, always unusually fertile, had scarcely begun to yield the wealth that is now pouring out in such abundance. The production of tobacco, now a great industry, was then only being introduced in this section. The contrast between the Goldsboro of that day and 1934 is amazing. Population has greatly increased. Manufacturing industries employing hundreds of workers at a good scale of wages now occupy acres that were then open fields.

Today Goldsboro is an ideal location for factories. The diversified industries now here are in a flourishing condition, developing to a marked degree each year; and the combination of climate, location, transportation, health, hospitality and other favorable conditions will produce a substantial and steady growth in population and wealth, justifying the judgement of investors and homeseekers who locate here.

Goldsboro has three railroads—the Atlantic Coast Line, the Southern and the Norfolk Southern. These great systems are among the best in the U. S., and provide transportation facilities second to none. They lead to the seashore, to the North and South, and to the great Central West. The many agricultural products of Wayne County find an outlet through the county seat, and the factories ship their products to every land.

Goldsboro is located on two national highways—No. 70, from the Atlantic Ocean to the great cities of the Middle West, and No. 17, from Maine to Florida.

Wayne County has good roads, of great importance to the farmer and the motorist, and adding to the pleasure and convenience of all who reside in this section.

Goldsboro has one of the finest and best directed school systems in the state, where a thorough and exacting course of instruction assures a splendid public school education and a good college preparation. There are eleven school buildings, constructed on the latest approved plan for educational institutions.

Goldsboro has a high moral and religious tone. There are thirty-five churches of leading denominations, whose congregations work in close harmony for the advancement of the common weal, and who gladly welcome all newcomers. Anyone is welcome here, regardless of his, or her, religious belief, and is free to act in accordance with his convictions.

Goldsboro has a well-constructed water and sewerage system. It was built with a consideration for the future and is ample for the supply and sanitation of a city much larger than Goldsboro. With an abundance of water, Goldsboro has a guarantee which attracts factories, as well as individuals. The fire-fighting force, backed by modern appliances, is efficient and watchful.

It is recognized today that the great South, with its amazing number of unexploited resources and possibilities of development, its superior conditions for agricultural production, and its healthful and charming climate, affords the best field of opportunity. The only debatable question is: Which Southern state and what location in that state offers the best combination of the particular conditions one desires?

Wonderful is the South, and great beyond our dreams will be its future, but in all these Southern states there will be none to compare in the rapidity of its growth with the pre-eminently well-favored state of North Carolina.

Goldsboro's latest development is its municipal airport. This landing field was established under the supervision of Government engineers and is shown on all Government air maps. Goldsboro's airport is being used daily by Government and commercial aviators, and plans for giving eastern North Carolina air mail service through Goldsboro's airport are now being considered by U. S. postal officials.

Write or wire the Goldsboro Chamber of Commerce for detailed information about Goldsboro.

When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.**

TRADE! You like
to patronize those concerns
who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

THE KNOWLEDGE OF

WHERE TO BUY

**IS AS IMPORTANT
AS WHERE TO SELL GOODS**

CITY DIRECTORY USES

1. SALES PROMOTION:

a. Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

b. Leads—

Determining proper official to approach for sales interview. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

c. Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

d. Building mailing lists and direct mail campaigns—

1. List of local people (Neighborhood List) within a given radius of Business location. On a city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.
2. Lists of business houses and the professions—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.
3. Vocational Lists—Such as clerks, stenographers, telephone operators, carpenters, salesmen, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city.
Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

2. CREDIT:

a. Verifying customer's statements and information.

b. Information about customer.

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

c. Determining character and stability of applicant for credit.

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

FOR EVERY BUSINESS

d. Identifying applicant and applicant's references.

The alphabetical directory gives complete information for each individual. (See Information about customer). The references given by the applicant for credit, can be identified in the same manner—who they are, what position they hold, etc.

e. Collecting accounts.

Tracing and locating debtor. Locating other members of debtor's family or relatives.

3. DELIVERY AND SHIPPING:

a. Routing—laying out route for delivery.

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

b. Obtaining correct addresses.

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

c. Locating streets, buildings, un-numbered houses.

A full description of every street—with location is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the buildings along the streets.

4. PURCHASING:

The complete classified business section in the back of this directory, makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official of firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

5. GENERAL INFORMATION:

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing officers, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.

(1934) HILL DIRECTORY CO.'S

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

THE BANK OF WAYNE

The Bank of Wayne Is A Member Of The Temporary Federal Deposit Insurance Corporation And The Funds Of Each Depositor Are Insured Up To \$5,000.00

GOLDSBORO DIRECTORY OF HOUSEHOLDERS (1934)

241

HILL'S GOLDSBORO

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1934

Copyright, 1934, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

***Between two intersecting streets denote there are no houses between them.

(c) Denotes colored.

ON EARTH

Who Sells It?

IS ANSWERED BY THE
CLASSIFIED BUSINESS LISTS
IN THIS DIRECTORY

288

(1934) HILL DIRECTORY CO.'S

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

THE BANK OF WAYNE

The Bank of Wayne Is A Member Of The Temporary
Federal Deposit Insurance Corporation And The Funds
Of Each Depositor Are Insured Up To \$5,000.00

TRADE! You like
to patronize those concerns
who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

THE PUBLISHERS

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
